

1 SONOMA VALLEY

Rolling hills of endless vineyards, secluded canyons, burbling creeks, and a redwood glen make this 42-mile journey worth the occasional steep grade. Complete the visit with a meal in Sonoma's historic town square, and try the wine. Although this route has some hills, a short casual ride can be taken by visiting just Glen Ellen. It can be hot and crowded in the summer; spring and fall months have the best weather. Traffic can be heavy on Sonoma Highway, so for the safest trip in the fairest weather, ride early. Closest freeway and city: Highway 101, Petaluma.
